

LOS ANGELES UNIFIED SCHOOL DISTRICT  
REFERENCE GUIDE

**TITLE:** Health Advisory / Air Pollution Episodes Procedures  
**NUMBER:** REF-886.1  
**ISSUER:** Angelo J. Bellomo, Director  
Office of Environmental Health and Safety  
**DATE:** August 2, 2007

**ROUTING**  
All Offices  
All Schools

**PURPOSE:** This Reference Guide is to establish procedures for the notification of school sites and offices in the event an air pollution episode is declared. For purposes of this Reference Guide, an air pollution episode is defined whenever: a health advisory is issued by local or State public health authorities; or an episode is declared by the South Coast Air Quality Management District (SCAQMD) or California Air Resources Board (CARB).

**MAJOR CHANGES:** This Reference Guide replaces *REF-886, Health Advisory / Air Pollution Episodes Procedures* issued on *March 22, 2004*. This revision includes new District sites. Daily air pollution information can also be obtained from the SCAQMD by calling 1-800-CUT-SMOG (1-800-288-7664).

**INSTRUCTIONS:** I. ALERT NOTIFICATION AND TERMINATION PROCEDURES

In the event a health advisory is issued or air pollution episode declared, OEHS will initiate the following procedures:

A. ALERT NOTIFICATION – OEHS will fax or telephone the following message to Student Information Systems Branch and each Local District Office:

“This is an emergency procedure message from the Superintendent. The South Coast Air Quality Management District has declared a \_\_\_\_\_ episode for Source Receptor Area(s) \_\_\_\_\_ as of \_\_\_\_\_ today. Principals are directed to follow the Office of Environmental Health and Safety Reference Guide No. \_\_\_\_, dated July 27, 2007”

## LOS ANGELES UNIFIED SCHOOL DISTRICT REFERENCE GUIDE

---

### B. AIR POLLUTION ALERT TO SCHOOLS INITIATED

Schools will be notified by a notice posted on the “Inside LAUSD” intranet site. Schools must check “Inside LAUSD” at approximately 12:00 noon each day to determine if a health advisory or air pollution episode has been predicted for the following day, or if one is currently in progress.

### C. TERMINATION OF AIR POLLUTION ALERT TO SCHOOLS

OEHS will fax or telephone the following message to each Local District Office and to Student Information Systems Branch for posting on “Inside LAUSD” to terminate an alert.

“This is an emergency procedure message from the Superintendent. The South Coast Air Quality Management District has terminated the \_\_\_\_\_ episode for the Source Receptor Area(s) \_\_\_\_\_ as of \_\_\_\_\_ today.”

## II. SITE ADMINISTRATOR RESPONSIBILITIES

- A. Determine if your school is located in the Source Receptor Area described in the alert by reviewing Attachment A - SCAQMD Receptor Area. If your school is listed in the SCAQMD Receptor Area table mentioned in the alert, implement the following procedures:
- B. Regular School Program
  - 1. Alert teachers, staff and all other site users (e.g., Youth Services, Children’s Centers, Continuation Schools and Adult Schools) regarding the health advisory.
  - 2. Implement physical activity restrictions described in the following Section III.
  - 3. Students and staff with special health problems should follow any additional precautions recommended in writing by their physician. This

## LOS ANGELES UNIFIED SCHOOL DISTRICT REFERENCE GUIDE

---

information must be recorded on the student/employee health card.

4. School site administrators should consider sending notification of predicted air pollution levels for the following day by issuing a letter to parents (See Attachment B sample letter).

### C. Interscholastic Athletic Programs

1. Observe physical activity restrictions described in Section III.
2. If a pollution episode is expected but has not yet occurred at the time an outdoor interscholastic game or event is scheduled to begin, that event may begin as scheduled.
3. If an outdoor interscholastic game or event is scheduled to begin and a Stage 1 Episode is in effect, the event should be canceled and rescheduled, if possible. If a Stage 2 or 3 Episode is in effect, the event must be cancelled and rescheduled. The school should communicate with the Interscholastic Athletics Office to coordinate cancellation or rescheduling of the game or event, as appropriate.

### III. OEHS and SCAQMD recommend the following limits on physical activities for each type of episode:

#### A. For periods of Unhealthful Air Quality (exceeding the Federal Clean Air Standards):

1. Susceptible individuals (e.g., children with heart or lung disease) or healthy individuals that are experiencing adverse health effects should minimize outdoor activity. For example participation in calisthenics, basketball, running, soccer, football, tennis, swimming and water polo should be cancelled.

#### B. For Health Advisory Episodes (applies only to ozone):

1. All children should discontinue vigorous outdoor exercise lasting longer than one hour.

## LOS ANGELES UNIFIED SCHOOL DISTRICT REFERENCE GUIDE

---

2. Susceptible individuals, such as those with heart or lung disease, should avoid outdoor activities.

### C. For Stage 1 Episodes:

1. Children must discontinue all vigorous outdoor activities regardless of duration.
2. All outdoor physical education classes, sports practice and athletic competitions should be canceled and rescheduled, if possible.

### D. For Stage 2 and 3 Episodes:

1. All children must discontinue outdoor activity.
2. Implement Rainy Day Procedure. Children should remain indoors during lunch and nutrition breaks.
3. All outdoor physical education classes, sports practice and athletic competitions must be canceled and rescheduled.

## IV. POSTING SMOG ALERT SIGNS

Smog alert signs must be posted at main entrances and the Main Office following notification of a predicted air pollution episode (see Attachment C; select the sign corresponding to the smog alert level: Stage 1, Stage 2, or Stage 3). Written or public address system announcements may be used in conjunction with posting signs to notify students and staff of the predicted health advisory or air pollution levels for the following day and the resulting changes in scheduled activities.

### **RELATED RESOURCES:**

OEHS Website: <http://www.lausd-oehs.org>. South Coast Air Quality Management District Website: <http://www.aqmd.gov>  
Telephone SCAQMD: 1-800-CUT-SMOG (1-800-288-7664).

### **ASSISTANCE:**

For assistance or further information on student medical issues call Student Medical Services (213) 765-2830.

For information regarding air quality compliance issues, call the Office of Environmental Health and Safety (213) 241-3199.

For information regarding Interscholastic Athletics, contact the Interscholastic Athletics Office at 213-745-1980.

SAMPLE LETTER TO PARENTS

(School Letterhead)

(Date)

(It is recommended that this letter be used as a guide to notify parents of a pending health advisory episode from the South Coast Air Quality Management District.)

Dear Parent or Guardian:

A health advisory episode (smog alert) has been issued for tomorrow by the South Coast Air Quality Management District (SCAQMD). When the alert is given, school staff will reduce physical outdoor activities to minimize the effect on children. It is suggested that parents do the same at home after school, if the smog alert is still in effect. Have children avoid strenuous outdoor activities at home. For up-to-date, on-the hour information, call the SCAQMD at (800) 288-7664.

During a health advisory episode, we can all help by reducing our driving. Automobiles cause the most smog. Fewer cars on the road during smog alerts will help reduce the smog in the air. Let us all do our part to help the children.

Sincerely,

Principal

DISTRITO ESCOLAR UNIFICADO DE LOS ANGELES  
Office of Environmental Health and Safety

ADJUNTO B

MODELO DE CARTA PARA LOS PADRES DE FAMILIA

(Se recomienda que esta carta se utilice como una guía para notificar a los padres de familia sobre un aviso de peligro para la salud emitido por el Distrito para el Control de la Calidad del Aire en la Costa Sur.)

Estimado Padre de Familia o Tutor:

El Distrito para el Control de la Calidad del Aire en la Costa Sur, (SCAQMD, por su acrónimo en inglés) emitió un advertencia sobre una situación de peligro para la salud (alerta de niebla tóxica) para mañana. Cuando la advertencia entre en efecto, el personal de la escuela reducirá las actividades físicas al aire libre para minimizar el efecto de la toxicidad sobre los niños. Se sugiere que los padres de familia hagan lo mismo en sus hogares después de las horas de clase si la advertencia está todavía vigente. Indíquele a los niños que eviten actividades extenuantes afuera. Si desea información actualizada cada hora puede llamar al SCAQMD, teléfono 1-800-288-7664.

Durante una advertencia de este tipo todos podemos ayudar disminuyendo el uso de los automóviles. Los vehículos son la causa de la mayor parte de la niebla tóxica. La presencia de menos automóviles en las carreteras durante advertencias de niebla tóxica reduce la contaminación del aire. Pongamos todos nuestra parte para el bienestar de los niños.

Atentamente,

Director
